**Summary**
I'm a software engineering undergraduate looking to obtain a full-time position in the fields of computer science or software engineering. I am especially enthusiastic about full-stack mobile app and web development.

## PROJECTS

**Wattpad Clone**                     ~ *wattpad.wongzq.com*
Developed a Wattpad website clone using React with Typescript. Focused on responsive design and UI development using React.
Front-end        React with Typescript
                 Materialize CSS

**Instagram Clone**                   ~ *instagram.wongzq.com*
Developed an Instagram website clone using the MERN stack, that allows users to post images, like, comment and follow other users. Focused on CRUD operations and implementing REST API.
Front-end        ReactJS
Back-end         NodeJS
                 ExpressJS
                 MongoDB
                 Cloudinary

**Skeduler: Timetable Mobile App**    ~ *skeduler.wongzq.com*
Developed a prototype timetable scheduling mobile app, that cross-checks availability of part-time employees in small educational institutions. Focused on CRUD operations, cloud functions and state management using Provider.
Front-end        Flutter
Back-end         Firebase Cloud Firestore
                 Firebase Cloud Functions with Typescript

## EDUCATION

**Bachelor of Computer Science (2020)**
**Majoring in Software Engineering and Multimedia & Game Development**
INTI International College Subang, Malaysia (IICS)
in collaboration with University of Wollongong, Australia (UOW)
- UOW Dean's Merit Award 2017
- INTI Academic Excellence & Merit Award 2017, 2018, 2019
